

DEFIBRILATORS

When sudden cardiac arrest strikes, a victim's best chance of survival is immediate CPR and a rescuer with a defibrillator.

Lifeline Auto Defibrillator

Lifeline AUTO has the same features as a semi auto defibrillator, with the big difference being that the shock is delivered automatically. The Lifeline Auto automatically detects when defibrillation is required, ensuring treatment is only delivered when needed. It is able to identify and treat Ventricular Fibrillation, Ventricular Tachycardia and Supraventricular Tachycardia. 8 Year Warranty.

£2263

Zoll AED 3 Defibrillator

The Zoll AED 3 provides enhanced real CPR help, featuring a full-colour display with vivid rescue images, CPR cycle timer, and a large color bar gauge that shows CPR compression depth. The RapidShock analysis enables the the industry's shortest rhythm analysis for more continuous life-saving CPR. Available in semi-automatic and fully automatic. 5 Year shelf life for pads and batteries increases readiness and decreases frequency of maintenance

£2555
