

A must-have streamlined and **easy-to-use disinfecting fogger** designed to enhance your cleaning regime

The SHIELDme™ 1 litre fogger

is a handheld machine that can be used in every workplace and every setting. With a simple touch of a button, you can clean a large space in quick time.

Equip the fogger with SHIELDme™ high-level disinfectant to destroy 99.99% of viruses and bacteria on surfaces instantly.

By incorporating the fogger into your cleaning regime, you will be able to significantly cut down the time it takes to complete a deep clean. Once charged, the machine can be used continuously for approximately 90 minutes. **Tackle every surface and those hard-to-reach places!**

High-Level Disinfectant 5L

FREE for a Limited Time

*USB rechargeable

How to Use

- Charge it up
- Fill it with SHIELDme™ disinfectant
- Switch the machine on
- Spray the area
- Switch it off
- Store in a cool, dry place

Newline's Sanitising Solutions

Fill up the fogger with SHIELDme™ formula, a water-based disinfectant that is fast acting and does not contain any harsh chemicals. In fact, it is:

Non-irritating Non-Alcoholic Non-Flammable Eco-Friendly

Tips

Cover up electrical equipment when spraying the solution.

Wipe off immediately if sprayed on to corrosive metal.

Leave for 1 minute to dry.
