

newline

CLEANING & HYGIENE SUPPLIES

FLOOR CARE GUIDE

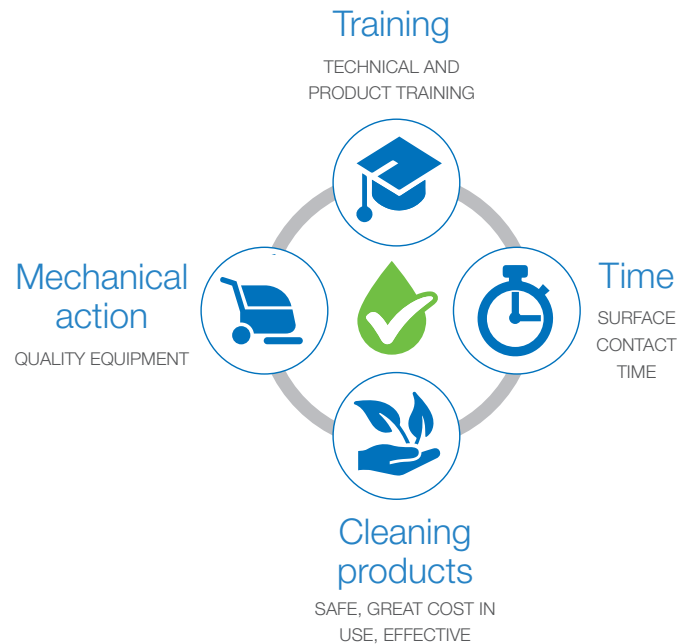

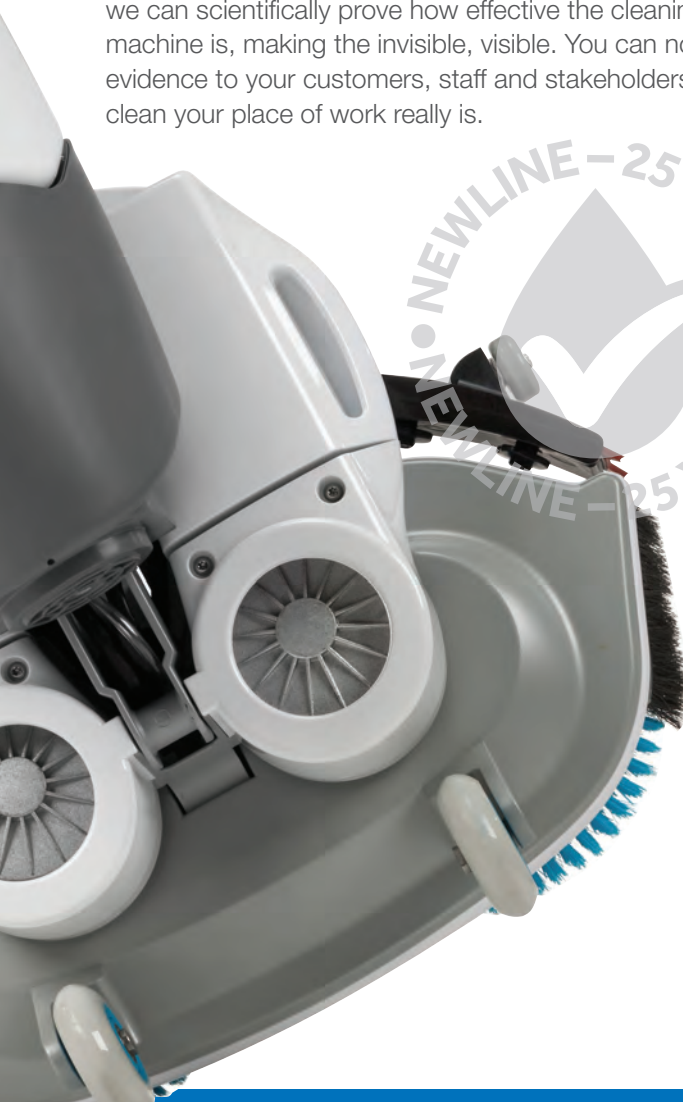

First impressions last. When you enter a building you immediately notice the condition of the floor. Stains on a carpet, or dirty floors, give a poor impression and are often the result of a lack of time, training and the correct equipment, which are all essential to maintain the cleanliness and safe condition of the floor and those all-important first impressions.

At Newline we have 25 years industry experience to help provide you the tools that you need to clean and maintain a floor to a high standard, without compromising on quality, or exceeding your overall budget.

The latest innovation in cleaning equipment is revolutionising the way we now clean. Innovative, high quality machines can clean a floor, or carpet to a higher standard than before, and save the budget holder up to 80% in productivity. This is changing the way we think about cleaning.

If you operate in the Healthcare, Education, Facility Management, Retail, Industrial or Hospitality sector, we have the right equipment to ensure the highest standard of cleaning is achievable. In fact, using the slip test reader and ATP test kit contained within the i-know kit, we can scientifically prove how effective the cleaning machine is, making the invisible, visible. You can now evidence to your customers, staff and stakeholders how clean your place of work really is.

As part of our machine offer we can provide the following:

- **Access to all machine types** from many of the industry trusted suppliers, ensuring we get the right machine for the task in hand.
- **Expert advice** – with our deep knowledge of cleaning, and by working closely with our supply chain partners, we can provide expert advice through technical support, surveys and free demonstrations.
- **Service** – We understand that the machine you purchase can often be critical to the cleaning standards in your business. Our highly trained supply partner engineers, specialise in keeping your machines performing. Trained on all makes and models, and carrying a vast amount of parts and spares, we can offer a next day service to get your machine back up and running within 24 hours.
- **Service plans** – For a low annual cost we can provide a Preventative Maintenance plan that replaces worn parts to ensure you don't get unexpected repairs and invoices in the future.
- **Hire** – We offer a flexible approach to hiring machines. Very often you need a carpet cleaner and a hard floor cleaner for daily cleaning tasks, but might wish to hire a pressure washer for periodic external cleaning. We can provide all types of machines, on short term hire, long term hire and a fixed rate hire, with terms available from just a single day up to five years.
- **Leasing** – Don't want the whole cost up front? We can offer a range of leasing options too.

Please contact your local Technical advisor or customer service contact for more information.

I-MOP

i-mop L

**I-Mop Lite: 15" I-Mop Scrubber
Dryer, batteries and charger
included**

The i-mop family cleans up to 70% faster than conventional wet mopping and up to 30% faster than conventional auto scrubbing. The i-mop and its ability to get right to the edge and under obstacles means a virtual elimination of manual operations that are required to supplement conventional machine scrubbing. The i-mop lite has a 500rpm brush speed, and just a 37cm cleaning width meaning not only is it 70% faster than mopping, but it can also reach the places you would typically use a mop.

Part No. I01.002

i-mop L

i-mop XL

**Package with 2 scrub brushes, 2
white batteries, charger**

The i-mop XL represents an opportunity for you to dramatically improve your cleaning and maintenance operations while saving you time and money. As a heavy duty auto scrubber, the i-mop will clean floors up to 70% faster, easier and with better results than you can achieve with traditional wet-mopping. With a 46 cm scrub deck the i-mop XL can be used for small to medium spaces.

Part No. I01.001

i-mop XL

i-mop XXL

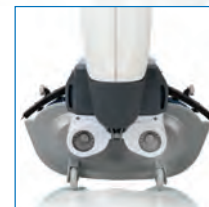

**Package with 2 scrub brushes, 2
grey batteries, charger**

The i-mop XXL represents an opportunity for you to dramatically improve your cleaning and maintenance operations while saving you time and money. As a heavy duty auto scrubber, the i-mop will clean floors up to 70% faster, easier and with better results than you can achieve with traditional wet-mopping. With a 62 cm scrub deck the i-mop XXL can be used for small to large spaces.

Part No. I01.003

i-mop XXL

I-GUM

i-gum

i-gum battery machine, no battery or charger

Hardwood, soft floors, fabric, doors, plywood, concrete or steel. The i-gum doesn't care where something is stuck, it will get the job done, no matter which surface it has been stuck to in just 6 seconds.

Part No. 101.004

i-gum

Day pack, 4 x 2 Litre chemical, 4 spare brushes

When you aim the brush towards the area you want to have cleaned, the specially designed brush emits a PH Neutral and Safe chemical steam mixture to evaporate the chewing gum, which can then be brushed away. Easy as 1,2,3!

Part No. 101.004C

I-VAC

i-Vac C5

C5 standard machine

The i-vac 5 is a powerhouse machine that gets the job done. A well trusted name in the community, the i-vac 5 has surprised every user with its proven mobility, design and power. The i-vac 5 is used for office, carpet, household, cabinet, wardrobes, and more cleaning. The detachable power cable, illuminated power switch and the patented Whizzo sound when the bag is full. All of these functions and elements were created and designed with the feedback from users, and their ideas and insights that come from working different machines years on end.

Part No. 101.005

i-Vac C5

C5 personalised

- Minimum purchase of 36 machines

With a minimum purchase of 36 machines, you can brand you i-vac 5 with your logo and colours. Contact us for more details.

Part No. Please contact your technical adviser for more information

i-Vac C5B

C5B Battery machine, no battery or charger

With all the functionality of the i-vac 5 but with the flexibility of utilising the i-team battery technology, giving the user the freedom to move around areas without having to plug in, unplug and rewind they move from section to section. Part of the Plug and Play concept.

Part No. 101.006

i-Vac C6

C6 standard machine

I-VAC C6, from the revolutionary I-MOP range, has been devised and designed in direct response to customer feedback and suggestions; it is self-professed to “change the way you think about cleaning”. This compact yet powerful tub vacuum cleaner features I-VAC’s regular detachable power cable, patented “Whizzo” sound to indicate a full bag, combined with power reduction when full, and an illuminated power switch. For a minimum purchase of 20 machines, you can have them personalised with your company logo and colour scheme.

Part No. I01.007

C6 personalised - units of 20 machines

- Minimum purchase of 20 machines

Part No. Please contact your technical adviser for more information

i-Vac C9

C9 Battery machine, no batteries or charge

Part of the I-Range from I-Team. The C9 is a battery vacuum part of the I-Range designed for use in most areas whether it be at home or in a business environment.

Compatible with 2 batteries that alternate power consumption between each other to improve battery life and provide up to 80 minutes of running time on a full charge. The outer canister is made from tough, resistant material with no screws or rivets for maximum protection. Complete with a rubber finish your furniture, doors and even the I-Vac itself are protected from any chips, scuffs or noticeable damage. Not only that, the C9 is robust enough for use in contract cleaning thanks to the flexible nylon material used in the floor tool.

Part No. I01.008

i-Vac 30UR

Upright vacuum machine

Years of innovation and development have perfected the i-vac series, and the 30 UR series is the culmination of feedback from the cleaning industry. Features include:

- Quick cord release and cover
- Green switch and detachable cable
- Quick disconnect of upper body to lower body for easy and rapid replacement
- Soft rear castors with ball bearings
- Whizzosystem, unique patent which creates a sound when the bag is full
- Filter cartridge system with black, red and blue cassette. (Standard HEPA & ULPA)
- Flat operation including handle wheel
- Adjustable handle
- Paper sensor, cannot close the door without a bag inside

- Bag closing system so you can remove the bag without making a mess
- Inspection door into swivel neck for easy removal of dirt or blockages
- Quick cleaning panel with coin screws to clean the brush roll section
- Name card system for registration of unit per department or operator name

Part No. I01.009

FURTHER INFORMATION

Please contact your local technical adviser or service contact for any further information about spare parts, replacement batteries or consumables.

i-Vac 4B

4B battery backvac, no battery or charger

Don't let your vacuum cleaner cord restrict you. Carry the lightweight and cordless i-vac 4B Move on your back. Allowing you to move with maximum mobility and work efficiently. The backpack vacuum cleaner allows you to cover more than twice the floorspace compared to a normal vacuum cleaner, and is more ergonomically designed.

The i-vac 4B dramatically improves how you work and is an opportunity to improve your cleaning operations - making it cleaner, faster and safer. The cordless i-vac 4B Move with its lightweight backpack, gives you more freedom of movement - especially in confined areas. There is no longer a need to worry about difficult terrain with bumps, steps, or other obstacles. The mesh backing helps you stay comfortable and cool during operation. The wide shoulder straps in combination with the chest straps provide for maximum flexibility. The unique carrying system of the 'i-vac 4B Move', ensure ultimate comfort during lengthy working time.

Part No. I01.010

I-SCRUB

i-scrub 21B

i-scrub 21B battery package machine, including batteries & charger, brushes & pad holders

Double disc action with the flexibility to even scrub areas in a vertical position. Equipped with an adjustable head & 360° of free-range motion. With a powerful engine that achieves 400 RPM using two discs, it's a brilliant machine that allows the user to scrub any surface with extreme power. You can manually dose your solution with the push of a button. Easily convert your machine into a handheld unit for polishing, powered by Li-ion battery technology for the same power. Ideal for washroom rooms and wet rooms, and hard to reach areas that need the benefits of mechanical action cleaning.

Part No. I01.011

i-scrub 21B

i-scrub 21B Handy model, including batteries & charger

Ideal for washroom rooms and wet rooms, and hard to reach areas that need the benefits of mechanical action cleaning.

Part No. I01.012

i-scrub 30EM

i-scrub 30, cabled model including brushes and pad holder

Single-disc scrubbing has never been easier. Advanced orbital technology is based on 1650 RPM which simulated an orbital movement with no sideforces, so everybody can operate it without training. The i-scrub 30EM is a nifty machine with a lot of power. The water tank on top ensures you can mix in your chemicals to perfection. To prevent damage to furniture and walls, we've created a rubber bumper for you to work freely!

Part No. I01.013

i-scrub 30B

i-scrub 30B, battery model including brushes and pad holder, no battery or charger

The battery version of the i-scrub 21 is the i-scrub 21B. Giving the user all the same cleaning capabilities of the cabled version, but with the flexibility the battery technology offers. You can quickly and efficiently go from area to area giving hard floor surfaces a really deep clean. A great machine for restoring ground in dirt on hard floor surfaces.

Part No. I01.014

TUB VACUUM

Numatic NVR200

Numatic NRV200 230v Red

This high performance vacuum cleaner's powerful motor and three stage filtration system is perfectly suitable for commercial use with its folding carry handle, simple to use dust bags and its unique rewind and storage system. The Numatic NRV200 also features ProFlo technology for reduced energy consumption without hindering performance on carpets and hard floors. Its reliability and ease of use has been proven time and time again.

Part No. B78.005

Truvox VTVE

VTVe A energy rating tub vacuum, with HEPA 13 filter

The VTVe is a high-performance, compact tub vacuum that has an A energy rating. This dry tub vacuum is ideal for nursing homes, offices and education facilities. The VTVe is designed to be compact and includes brush and crevice tools for improved cleaning in hard to reach and confined areas. Featuring a 3-stage filtration, including a HEPA 13 filter, the VTVe provides a high filtration of all particles that are 0.3 microns and larger, and the machine only weighs 6kg.

Part No. I01.017

Henry Vacuum Bags

Replacement bags for all Numatic, Truvox and i-team vacs.

Code: B78.801 Pack size: 1 x 10

UPRIGHT VACS

Sebo BS360

Sebo BS 360 230v 36cm

The BS 360 offers premium performance and quality combined with efficiency and economy. Designed to be used for extended periods in comfort, the BS 360 is easy to maintain, with features such as replaceable brush strips and convenient unblocking access points. With a 36 cm cleaning head the BS 360 can clean a wide range of facilities. Able to clean flat to the floor, it can reach under furniture and its L-shaped head lets it clean under radiators. The BS 360 is built to last using the best materials and design. SEBO BS range benefits: Effective and trouble free operation, All round cleaning ability, Economic servicing, Durable, High cleaning productivity

Part No. I01.015

Also available in 46cm pick up width

Sebo Evolution 300

Sebo Evolution 300 230v 30cm

SEBO have used their extensive knowledge of the requirements of professional buyers and users, to create the EVOLUTION range of upright vacuum cleaners. From the start, SEBO established product durability, usability and ease of maintenance as the developmental priorities. To create a simple machine required sophisticated solutions. As a result, the SEBO EVOLUTION sets new standards in the professional cleaning industry.

The SEBO EVOLUTION offers innovative features that make the user's cleaning tasks easier, whilst also saving time and costs related to machine service and maintenance. Its light handle weight ensures easy control and smooth manoeuvrability- even for longer work periods. The handy wand and integrated suction hose are immediately ready to clean hard-to-reach areas or typical above-the-floor items, such as furniture. Full-size crevice and upholstery nozzles are neatly and conveniently stored on the back of the machine. The SEBO EVOLUTION stands out due to its intelligent design features, such as an overload-secure foot pedal, quick access to all parts and thoughtfully placed ergonomic handles. And, of course, it fulfils the requirements of the European Ecodesign Directive for vacuum cleaners. Easy Cable Change

- Easy-to-change Brush Strip
- Overload-secure foot pedal
- 2 integrated attachments (crevice and upholstery nozzle)
- Dependable filtration – also available in the HEPA-class Standard
- Innovative brush height adjustment
- Cleans flat to the floor

Part No. I01.016 Also available in 35 & 45cm pick up width.

3-Layer sealable bags for Sebo Evolution 300

3-Layer sealable bags for Sebo Evolution 300.

BATTERY VACUUMS

Makita DVC261

Makita DVC261Z Backpack Vacuum (2x 5.0Ah Batteries)

The new DVC261ZX11 Brushless Backpack LXT Vacuum Cleaner is powered by twin 18V Lithium-Ion LXT batteries, directly housed on the machine to power the 36V DC Brushless motor drive system that provides high performance and extended run time.

The new DVC261Z produces 105, 55 and 30 watts of suction power in Maximum, High and Low settings with an improved maximum airflow of 2.3 m³/min and sealed suction of 11 kPa. This vacuum features a convenient controller operable On/Off switch and Max/High/Low power selection switch. This controller is equipped with a belt clip that attaches onto the waist belt of the comfortable, adjustable harness. An intelligent mode memory function allows start-up in the same suction power as when the vacuum was turned off.

Features include:

- Comfortable belt clip and adjustable harness
- Intelligent Mode Memory Function
- 2.0 Litre Capacity
- Just 3.9kg in weight
- 140 Minute run time on 2 Li-ion Batteries.

Part No. 101.020

FURTHER INFORMATION

Please contact your local technical adviser or service contact for any further information about spare parts, replacement batteries or consumables.

Truvox VBU

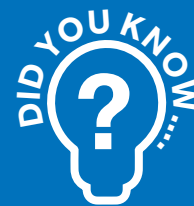

Truvox Valet Battery Upright

Truvox Valet Battery Upright Vacuum Cleaner (VBU) is the first commercial battery upright available on the UK Market. The Valet Battery Upright is a dry vacuum cleaner that is ideal for daytime cleaning in nursing homes, offices and education facilities where power is not easily accessible or the use of corded machines poses a risk. Lithium ion battery provides 60+ minutes of runtime.

- Battery level indicator lets you know when the battery needs recharging.
- HEPA bag included.
- Weighs only 5kg and includes a convenient carry handle for easy transportation.
- A self-adjusting nozzle allows the vacuum to float evenly over all flooring surfaces, no manual adjustments are required.
- Edge cleaning feature provides improved cleaning near walls and stationary furniture.
- A squeegee is fitted on the bottom of the vacuum to improve cleaning results on hard floors.
- The vacuum lays flat on the floor for effective cleaning under beds and tables.
- Easy to replace dust bag.
- Awarded the Carpet cleaning category at the Cleaning Show 2017 Innovation Awards.

Part No. 101.019

The addition of a deodoriser to the cleaning solution will make the cleaning smell fresh during the drying process and by using a neutraliser, it will also break down any bacteria which might be present.

A prespray (or pre-treatment) applied to the more heavier soiled areas of carpets, prior to cleaning, improves the cleaning result expeditiously. It is fact the "Cleaner".

WET VACUUM

Viper LSU135

Viper LSU135-UK 1000w 35L Wet Vacuum

Also available in 55, 75 & 95ltr capacity

The VIPER LSU 135 is a wet/dry professional vacuum cleaner. It is easy to use, robust and has optimal suction power. You can choose stainless steel tank or red plastic tank. As standard, the machine is delivered with the following accessories: crevice tool, round dusting brush, wet pick-up tool and dry pick-up tool. Easy to use and service, Optimal suction power, Robust chassis, Cable storage, For wet or dry vacuum applications.

Part No. **I01.018**

Viper CEX410

Viper CEX410 Medium Carpet Extraction

The VIPER CEX410 is a professional self-contained and silent carpet extractor. With its excellent cleaning performance, you can maintain textiles like carpets and upholstery in an efficient and easy way, the powerful vacuum motor ensures fast dry-time. The machine is equipped with large capacity tanks; 35L solution and 23L recovery made of ridged, chemical resistant and environmentally friendly polyethylene. The handle can easily be adjusted for different operator heights to obtain an ergonomic working position. Low sound level enabling daytime cleaning.

- Easy to maintain and service, with no tools needed
- Manual upholstery or floor tool accessories available
- Foot operated parking stand for brush protection

Part No. **I01.022**

CARPET CARE

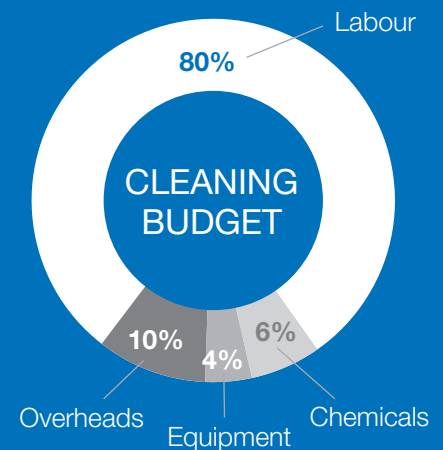

Prochem Five Star Machine

Fivestar Upright self-contained power brush carpet, floor & upholstery cleaning machine A highly compact and portable high performance carpet and floor cleaning machine, the Prochem Fivestar upright extractor enables any operator to achieve professional results and quick drying with the minimum of effort. The Fivestar can also clean fabric upholstery with the optional upholstery tool as well as hard floors, tiles and grout with the built in 'All-Floor' feature. A completely self-contained design, combining a powerful pump and vacuum system with a power driven self-adjusting brush, means that there are no hoses or wands to attach.

Part No. **I01.021**

Labour savings

From industry information, we know that the cleaning budget is made up of 80% labour, 6% chemicals, 4% equipment and 10% overheads. Switching from manual to mechanical solutions can achieve savings of up to 50% – 80% in cleaning time. Through our partnership work with the customer we can help the staff to be more productive, use better quality equipment and achieve better results.

SAVE UP TO **50-80%** IN CLEANING TIME

I-mop savings

– if you mop an average size kitchen 5 times per day taking 15 minutes, the i-mop will save you £2,500 per year over a traditional mop and bucket.

Envirodri Gen4 Dry Carpet Cleaning Machine

The Envirodri system is one of the most efficient and environmentally responsible ways to clean all types of carpet without the use of water. To be used in conjunction with Pro 40 Envirodri Microsponges, the dry carpet cleaning machine is suitable for both spot and deep cleaning schedules and enables facilities to maintain their flooring without disruption to daily activities.

The system cleans using 100% biodegradable, natural, soft, sponge-like particles which have been moistened with just the right amount of cleaning ingredients to dissolve and absorb dirt and grime from carpet fibres. The GEN4 machine effortlessly glides over carpets, agitating the microsponges into the fibres whilst also acting as a pile lifter - cleaning whilst simultaneously restoring previously flat, crushed carpet. After use, simply vacuum to reveal clean, odour-free and dry carpeting.

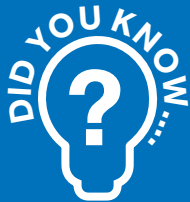

Part No. I01.023

Envirodri Microsponges 10kg

Suitable for use on all carpet types, Pro 40 is one of the most advanced dry carpet cleaning powders on the market today. Made from 100% biodegradable, natural, soft, sponge-like cellulose fibres these microsponges have been moistened with just the right amount of cleaning ingredients to dissolve and remove dirt and grime from carpet fibres. Suitable for all types of carpet and both spot or deep cleaning, the microsponges should be used in conjunction with the Envirodri GEN 4 Dry Carpet Cleaning Machine or a carpet brush.

Part No. I01.023P

The carpet manufacturing industry recommend regular dry extraction with an upright vacuum cleaner in preference to a tub vacuum, as the brush helps release more dry soil.

Bissell BG10

Bissell BG10 small Carpet Extraction

The Bissell BG10 provides commercial deep cleaning, done right, done fast and for a great price! The Bissell BG10 is ideal for cleaning large carpeted areas, providing a big fix for a big mess.

The machine uses two powerful motors and a patented DirtLifter power brush to get your carpets looking clean and brand new. The BG10 has two large capacity water tanks, and adjustable handle and an easy-clean brush roller included. Need to reach a long way with your carpet cleaner? No problem the BG10 has a huge nine metre extension cord, allowing you to clean long corridors in hotels without the need to keep unplugging and replugging in your machine.

The key feature of the Bissell BG10 is its ability to clean whilst moving both forwards and backwards, meaning you can cut down your cleaning time by half. Other machines in this class typically will only clean when pushed in one direction, not the BG10! The carpet cleaner also has powerful edge-to-edge suction allowing you to clean the carpets right up to the skirting boards, ensuring every inch of your flooring is spotless.

Features & Benefits:

- Both forwards and backwards cleaning.
- 8m extension cable and 15m reach.
- 1 year warranty.
- 2 powerful motors.
- 2 Large water tanks.
- Easy clean brush roller.
- DirtLifter power brush.
- Edge-to-edge suction.
- Sold individually.

Part No. B78.707

CARPET CLEANING AND ODOUR CONTROL SYSTEMS

PROCHEM

For the use in the healthcare sector and leisure industry where hygiene and odour control is important.

S775 Extraction Plus

Low foam cleaning concentrate for carpet soil extraction machines. Cost effective, with empty recycling formula. Stable at high temperatures. Pleasant citrus fragrance. Dilution 1:100.

Pack size: **1 x 5L**

Change the way you think about cleaning floors. If you're a Care Home, FM Company, Leisure Centre, Hotel or Restaurant, take time to consider how much labour time and

effort your business puts in maintaining the floors, when the results could be achieved far easier, with improved staff engagement and results, using the latest correct from your local cleaning and hygiene supplies partner. Think about what happens when you mop a floor. You take the dirty from the floor, rinse the mop in the bucket, then re-apply the same mop and solution back on to the floor, constantly transferring dirty water between the floor and the bucket. Is this effective cleaning?

ROTARIES – 16” MACHINES

Nilfisk FM400

Nilfisk FM400 H 230V High Speed polishing machine

Ideal for high-speed polishing, scrubbing and spray cleaning of hard floors. The balance is excellent and the solid aluminium construction provides durability and extended life. The FM400 H is capable of a wide range of cleaning tasks: an ideal performance at an affordable price. Nilfisk FM400

Nilfisk FM400 L 230V Low Speed scrubbing machine

The FM400 L machines have a 43 cm brush/pad diameter and are designed for medium-duty usage, comfortable and fatigue free operation, producing effective results. Scrubbing and spray cleaning and stripping of hard floors, for example, are handled efficiently and quickly.

The FM400 range is also very silent and can be used in hospitals. The safety button, dead man's switch, high visibility cable, IPX4, automatic click on/off put the FM400 at the edge of safety. A A metal frame, big wheels, bumpers and gloss paint, all merged together in a modern design, gives evidence to the robustness, durability and easy cleaning of the machine.

Part No. 101.026

SCRUBBER DRYERS – CABLE PEDESTRIAN MACHINES

Viper AS380C

Viper AS380C 15” Scrubber Dryer (Comes With Scrubbing Brush)

Please note we can also offer a full range of Battery pedestrian machines, and battery ride on scrubber dryers.

STEAMERS – STEAM ONLY

Duplex Janitor 6

Janitorial Steam System (6 Bar)

The Janitor 6 comprises of a powerful steam cleaner called a Jet Steam Professional, Janitorial Trolley and Steam Mop supplied as one for a convenient cleaning solution. The Jet Steam Professional steam cleaner is a robust and efficient continuous flow machine which means that there is no downtime for refilling. This is due to the fact that this model has a boiler and a reserve tank so there is no need to de-pressurise to re-fill and lose valuable cleaning time. The Janitorial Steam System is supplied with a comprehensive kit of tools and accessories which can be stored in the handy receptacles of the trolley which makes transporting the entire system from place to place in the working environment both quick and easy.

These tools and accessories perform a wide range of cleaning tasks from steam cleaning with brush agitation to plug-hole unblocking, upholstery cleaning, grout cleaning, de-greasing of kitchen equipment and many more. The steam mop of the Janitorial Steam System is a powerful tool to combine cleaning with infection control so is perfect for clinical environments such as vets, hospitals and dental surgeries. The Duplex range of steam cleaners offers premium quality technology. Their robust manufacture and design is based on extensive work with people who have demanding commercial and industrial applications.

Part No. 101.029

Duplex Machine 340 Floor Cleaner Steam Machine

The Duplex 340 Floor Steam Cleaner, with a cleaning width of 340mm (13"), gives 'right to the edge' cleaning on all floor surfaces, alongside walls and into corners. The Duplex 340 Steam Floor Cleaner is effective for cleaning carpets, Polysafe, Altro, Marley, Tarkett, Flotex, Timbersafe, contract carpet tiles, safety floors, non-slip resin floors, sports safety floors plus many more. Also available in larger cleaning widths for those bigger cleaning tasks.

Part No. B78.100

Newline Terms & Conditions

1.1 In these Conditions the following expressions shall have the following meanings:

1.1.1 "Additional Items" means the following were incurred:

- (i) Packaging costs under conditions 7.3;
- (ii) Any taxes (including value added tax), duties or other charges levied by any governmental or other authority in respect of or by reason of the sale, delivery, export or import of the Goods or any part thereof but excluding taxes assessed on profits or gains;
- (iii) Transportation costs under Condition 7.1 where the Customer has requested express, same day, overnight delivery or any other similar service or an additional £10 where the price payable (exclusive of Value Added Tax) is £50 or less;
- (iv) Storage costs under Condition 7.4;
- (v) The cost of samples under Condition 3.5;

1.1.2 "Contract" means the quotation, these Conditions of Sale, and any other document incorporated in a contract between the seller and the customer;

1.1.3 "the customer" means any person firm or company receiving a quotation from and/or placing an order with the seller;

1.1.4 "Delivery/Period" means 10 working days after the estimated delivery date;

1.1.5 "Goods" means all and every item of goods or part thereof supplied by the Seller and where relevant includes any work carried out by the Seller on items supplied by the Customer;

1.1.6 "Seller" means Newline and reference to the acknowledgement, consent, authority or agreement of the Seller shall mean acknowledgement, consent, authority or agreement in writing signed by a Director of the seller;

1.1.7 "Transgression" means any breach of contract or tort or any other act, default, omission or statement of the Seller, its employees, agents or subcontractors in respect of which the Seller is liable to the customer;

1.1.8 "Warranty Period" means 1 month from the date of delivery.

2. GENERAL

2.1 These Conditions apply to all contract for sale of Goods by the seller and supersede any previous Conditions of Sale published by the Seller. No additions or modification to or terms or conditions inconsistent with these. Conditions shall be binding upon the Seller unless agreed by the Seller in a document referring to a modification, alteration, variation or addition of or to the relevant Condition or Conditions.

2.2 All brochures, catalogues, price lists, samples, particulars or dimensions and other advertising or descriptive material submitted to the Customer are intended to be approximate only and to give a general impression of the Goods. Unless expressly incorporated the same shall or form part of the Contract. In particular, price lists are only of a limited duration and Customers should check the validity of any price lists in their possession before relying on them. The Seller reserves the right to make alterations to the design specification or source of manufacture of the Goods without prior notification to the Customer provided the Goods are of equivalent quality and perform the same function.

2.3 The Customer shall be responsible for complying with any legislation or regulations (of the United Kingdom or any other country) governing the export and import of the Goods into the country of destination (and any other country through which the Goods pass in transit) and for the payment of any duties thereon. The Customer shall fully indemnify the Seller against any fines, penalties, costs, claims, damages, losses and the expenses suffered by the Seller as a result of the Customer failing to comply with the Clause 2.3.

3. QUOTATION AND ORDERS

3.1 No contract for the supply of Goods will be created by the acceptance of a quotation or an order until the Seller acknowledges the order or commences work on the order.

3.2.1 The Seller may refuse to accept any order based upon a quotation if the quotation is open for acceptance in an unlimited period:

3.2.2 Where any order is based upon the standard price list of the Seller then, subject to Condition 3.3 the price shall be valid provided that delivery is to take place

within 30 days from the date of order.

3.3 The Seller reserves the right to increase the price quoted per unit for Goods if the Customer orders less than the number of units upon which the quotation was based or if the Seller's supplier's price increases.

3.4 The Seller reserves the right to increase or decrease the number of items in the Goods to be supplied by a variation not exceeding 5 per cent and to make an appropriate increase or decrease (as the case may be) to the price.

3.5 Any samples submitted with the quotation or at the Customers request must be returned within 90 days of receipt and if not so returned the cost of samples be added to the Contract price or invoiced separately.

3.6 The Seller reserves the right to make any changes in the specification of the Goods which are required to conform with any applicable safety or other statutory requirements or, where the Goods are to be supplied to specification, which do not materially affect their quality or performance.

4. PRICE AND PAYMENT TERMS

4.1 Unless otherwise stated any Additional Items shall be added to the price or may be invoiced separately.

4.2 Payment in full (without any deduction by way of set off or counter claim) for the Goods (and Additional items if any) shall be due and payable in POUNDS STERLING within 30 days of the date of the Seller's invoice.

4.3 The Seller reserves the right to charge interest at 8% above the Barclays Bank base lending rate for the time being on or any overdue payments until repaid in full.

4.4 The Seller reserves the right to recover from the Customer all direct expenses reasonably incurred by the Seller in the collection of any overdue sums.

4.5.1 Without prejudice to any other rights of the Seller, if there is reason to doubt that the amounts due from the Customer under the terms of the Contract will be paid in full according to the terms thereof, then the seller reserves the right to require payment in full before delivering or performing any other work or services whatsoever for the Customer;

4.5.2 The Customer shall indemnify the Seller against all losses sustained or extra expenditure incurred as a result of such a suspension of ordering, delivery or other work or services including a reasonable allowance for storage;

4.5.3 Where payment requested in accordance with this Condition is not received within 30 days of date of the invoice, the Seller reserves the right to sell or dispose of the Goods produced for the Customer and to recover any additional loss from the Customer.

5. TITLE

5.1.1 Legal ownership of the Goods is to remain vested in the Seller until both the Goods and any Additional items have been paid for in full, and until full payment has been received by the Seller under any other contract with the Customer for which payment is outstanding;

5.1.2 If the Customer obtains possession of the Goods prior to such payment, the Customer shall hold the Goods in a separate and identifiable form as bailee and fiduciary agent for the Seller;

5.1.3 Failure to pay the full amount when due shall give the Seller, or its employees or agents, the right to repossess the Goods (and enter the Customer's premises for that purpose if necessary) with or without notice and without liability and, at its option, to avail itself of any other legal remedy;

5.1.4 The Seller shall have the right to sell the Goods once they have been repossessed under this Condition.

5.2 Notwithstanding this Condition 5, the Seller shall be entitled to maintain an action for the price of the Goods and Additional items at any time after the date when payment is due.

5.3 The Customer may contract to sell the Goods to a third party in return for valuable consideration provided always that the Customer shall account in

a fiduciary capacity to the Seller for the proceeds of sale (to the extent of the Customer's indebtedness to the Seller) keeping the same separate and identifiable from its other monies. The Customer's rights under this Condition 5.3 shall cease if an event specified in clause 9.1.1 occurs to the Customer.

5.4 If prior to payment in full being made the Goods become comingled with similar goods belonging to the Customer and/or any third party the Customer shall hold the Seller's proportion of the comingled Goods or their proceeds of sale on trust for the Seller. The Seller shall be treated as a tenant-in-common of the comingled goods and the Customer shall hold as trustee for the Seller's proportion and (if the comingled goods have been sold) pay to the Seller its due proportion of the proceeds of sale.

5.5 Where the Goods are attached to either buildings or plant machinery of the Customer, the Customer agrees that it is not its intention that the Goods thereby become fixtures and fittings or part of the plant or machinery, but the Goods shall remain as chattels and be severable from the buildings or plant or machinery.

6. RISK CARRIAGE PACKAGING AND STORAGE

6.1 Where no specific instructions about the matter in which the Goods are to be delivered to the Customer or the delivery address are given, the Seller reserves the right in its absolute discretion to choose the means of carriage to the Customer and to direct the Goods to the Customer's last known business address. Any such specific instructions must be given to the Seller at the time or order and where such specific instructions are given the Seller reserves the right to charge for delivery.

6.2 In the case of sales where the Seller delivers directly or contracts directly with the carrier then the Seller will repair or (at its option) issue a credit note in respect of Goods lost or damaged in transit (other than by default of the Customer), provided that:

6.2.1 The customer specifies on the Carrier's Consignment Note details of such loss or damage; and

6.2.2 In respect of complete non arrival of all of the Goods comprised in the Contract notification is made to the seller within 7 days of the date of dispatch of the Goods and separately to the carrier within the period stipulated by the Carrier's terms of carriage for claims against the Carrier; and

6.2.3 In respect of damage to all or part of the Goods or loss of part of the Goods comprised in the Contract notification is made to the Seller within 5 days of delivery of the Goods and separately to the Carrier within the period stipulated by the Carrier's terms of carriage for claims against the Carrier. On request, the Seller will inform the Customer of the name and address of the Carrier and any time limit for claims, stipulated by them.

6.3 If it is necessary to despatch Goods in crates, cases, pallets the Seller reserves the right to charge for packaging. The amount charged for packaging will be credited in full to the Customer if the packaging is returned in good condition within 1 month of delivery.

6.4 Once the Goods are ready for delivery the Seller shall be entitled to invoice and be paid for the goods as if they had been delivered if for any reason the Customer does not arrange for or accept delivery. The Seller shall arrange storage for the Goods and the cost of storage shall be added to the Contract price.

6.5 Where the Goods are to be delivered in instalments, each delivery shall constitute a separate contract and failure by the Seller to deliver any one or more of the instalments in accordance with these conditions or any claim by the customer in respect of any one or more instalments shall not entitle the customer to treat the Contract as a whole as repudiated.

7. JURISDICTION

7.1 The Contract shall be governed in all respects by English Law and be subject to the sole jurisdiction of the English Courts.
